## Client Referral Scheme

solutions...

enabling business development

We share the journey...

## Client referral scheme

We established our [client referral scheme](#) in order to recognise the commercial value of referrals that result in the successful placement of an Interim Manager on an assignment.

Our scheme is open to anyone and is based on 20% of contract gross margin, with a maximum commission payable of up to £1000.

## How the scheme works

The referral scheme is simple;

- Client referral is via our [web submission portal](#)
- Referral acknowledged via email and a unique referral log number is issued
- Referees are kept informed at all stages of the client engagement
- Providing we are successful in placing an Interim manager on assignment then a referral commission is payable
- Commissions are paid monthly and are based on 20% of the assignment gross margin to a maximum of £1,000 payable per referral

## Who benefits?

The scheme is designed in the first instance to recognise and reward the commercial value of a good client referral. An additional benefit is that Interim Managers registered with us gain additional assignment opportunities they would otherwise have missed.

## Refer a client to us

To refer an interim management assignment to us please [follow this link](#) to the client referral page on our web site and complete the simple form provided.

Alternatively [contact us](#) directly at our Manchester office;
